

# What is new in BlueSpice? What does the future hold?

Roadmap

www.bluespice.com

### Agenda

- Looking back: Restructuring product development
- Our topics 2022 and 2023
- BlueSpice 4.2
- BlueSpice 4.3
- Further planned developments
- Your questions and suggestions

### Looking back: Restructuring product development

- Very good start for BlueSpice 4
- The right strategy: cloud and on premises solutions
- New product management and cloud-first strategy work: Upgrade went largely smoothly
- Testing further expanded
- Upload revised

### **Our topics 2022 and 2023**

- Last year: Management systems
- Open source alternative to Confluence
- IT documentation and knowledgebase as a use case
- BlueSpice 4.2 and 4.3
- Integration of BlueSpice pro in Easy Redmine

# **BlueSpice 4.2**

*To be published in summer 2022* 

### Upload

- Upload revised
  - Insert all document types via drag a drop
  - Insert document collection quickly in the text Lorem ipsum dolor s

- New dialogs
- Multiple upload
- Implementation status: done

### Workflow enhancement

#### Trigger

- Workflows start on a specific event
- Triggers can be managed via a graphical user interface
- Demonstration in talk by Markus Glaser
- Implementation status: done

orkflow	triggers	
+ Add new trigge	ar .	
Expert docur	-	
<b>control</b> Manual	nder which workflow can be	Single user feedback Manual Define conditions under which workflow can be triggered manually

On edit	after a page has been edited	
Name	Active	
Description		
		11.
Workflow to sta	rt	~
Select workflo		

### Word import

#### Convert Word files to wiki pages

- Imports: Texts, lists, tables, headings, formatting, images, footnotes, links.
- Not: Smart graphics and vector graphics
- Import dialog: e.g. selection of splitting of contents
- Implementation status: done

Cancel	Import file	Next
Confi	gure import settings	Next

Level 1	Headings	
Conflicts	with page title	
	if page name already exists	
c	e and an eauly exists	~

### Tag inspectors

#### Task

- Equipping all tags with settings dialogs ("Inspectors")
- Ul unification
- Examples: Player, book function, input box, category tree
- Implementation status: done

×	Progress	Done
abbearance of	rogress bar. The value depends a given text found in the body ar ned by the user.	on the nd an
Base count	(i) 200	+
Base item	(i)	
Progress item	(i) OK	

### **Delivery of standard templates**

- BlueSpice will contain standard templates in the future
  - Minutes
  - Project plans
  - To-do list
  - Message boxes
  - and much more
- Implementation status: in progress

(1) Note: This is a note.	
<b>V</b> Tip: This is a tip.	
[] Important! This is important.	
Warning! This is a warning.	
a contrage trus is a warning.	
Example: This is an example.	
This is a neutral box.	

# **BlueSpice 4.3**

### *Expected end 2022*

### Navigation menu editor

- Assemble and sort menu navigation
  - Via drag & drop
  - Hierarchy of pages is possible ("nesting")
- For this purpose a separate editor has to be built
- Implementation status: in progress (simple version in 4.2)

Dr	op elements from the Element pick	er here to add the	em to the form

### **Instance Status Overview**

- The special site in the cloud should also be available in on premises systems
- Implementation status: in progress

### CollabPad

- Separate module for notes, minutes and drafts?
- Implementation status: tech review

# **Other developments envisaged**

Implementation probably 2023

### Furthermore, in the queue

- Notifications
  - Remains behind the possibilities
  - Needs to be thoroughly reworked (refactoring)
  - Conception has started
- Tasks / Mentions
  - Mentions function that can be combined with tasks

- Reorganize insertion in Visual Editor
  - Reorganize navigation
  - If necessary, new insert dialog
- DeepL single page translation
- PDF export: Rewrite
