

## Opponents or Collaborators?

---

Let's make it make sense!

# Agenda

---

- Introduction
- Contradictions & commonalities of agile frameworks & (ISO) standards
- The Scrum roles
- The Scrum rituals & artefacts
- The structure of the ISO standards
- Resolving the contradictions
- Requirements for a knowledge database
- A dangerous myth

### Qualification

- Quality Auditor
- Information Security Officer
- Scrum Master
- Bachelor Degree “International Technology Management”

### Available for

- Interim Management Positions
- Introduction, maintenance and enhancement of integrated management systems
- Conduction of 1<sup>st</sup> and 2<sup>nd</sup> party audits
- Preparation and hosting of 3<sup>rd</sup> party audits
- Process modelling
- Performance measuring & KPIs

# Contradictions & Commonalities

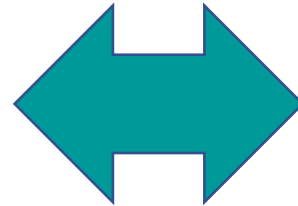

---

## (Supposed) Contradictions

No disciplinary hierarchy  
in agile teams

Traceability required by standards vs.  
flexibility promoted by agile manifesto

Agile manifesto (allegedly) puts  
increments over documentation

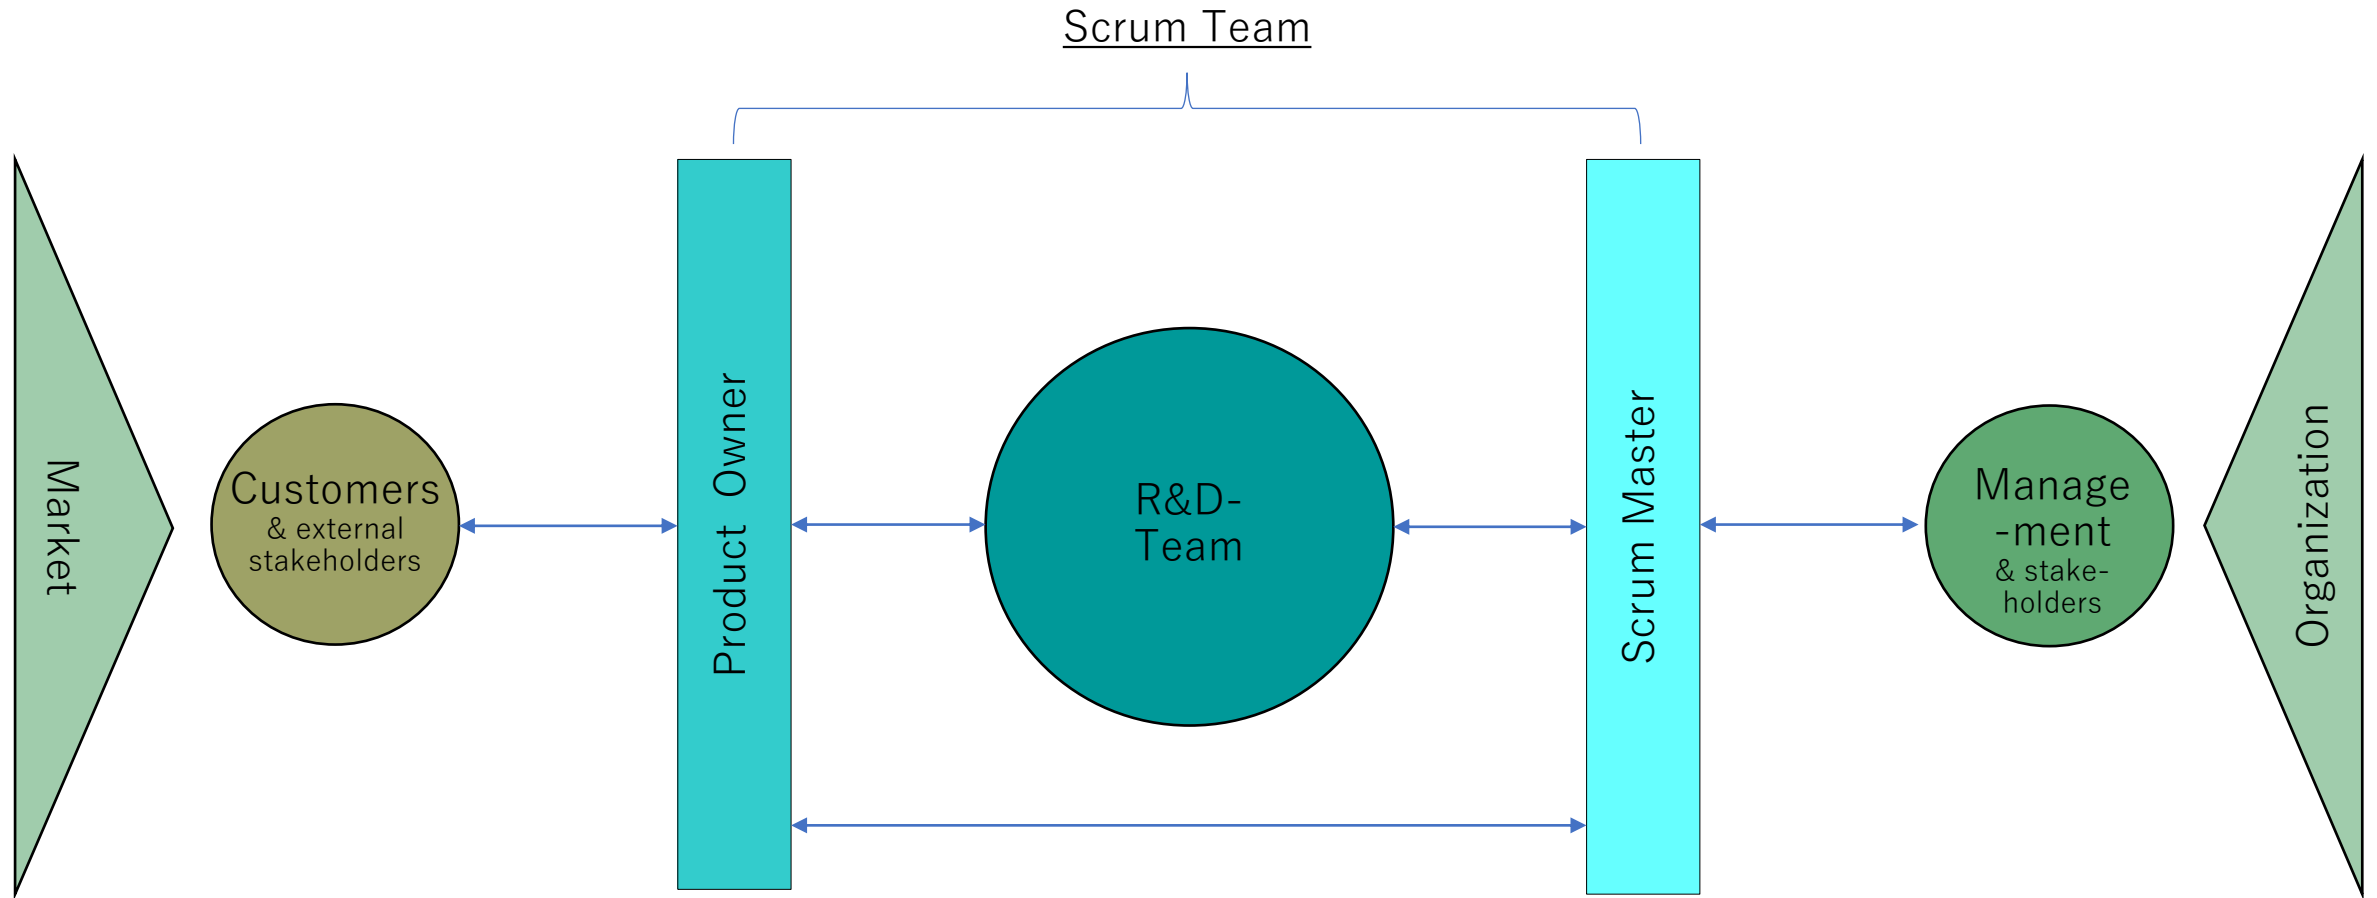

## Commonalities

Clear responsibilities  
(even though not hierarchical)

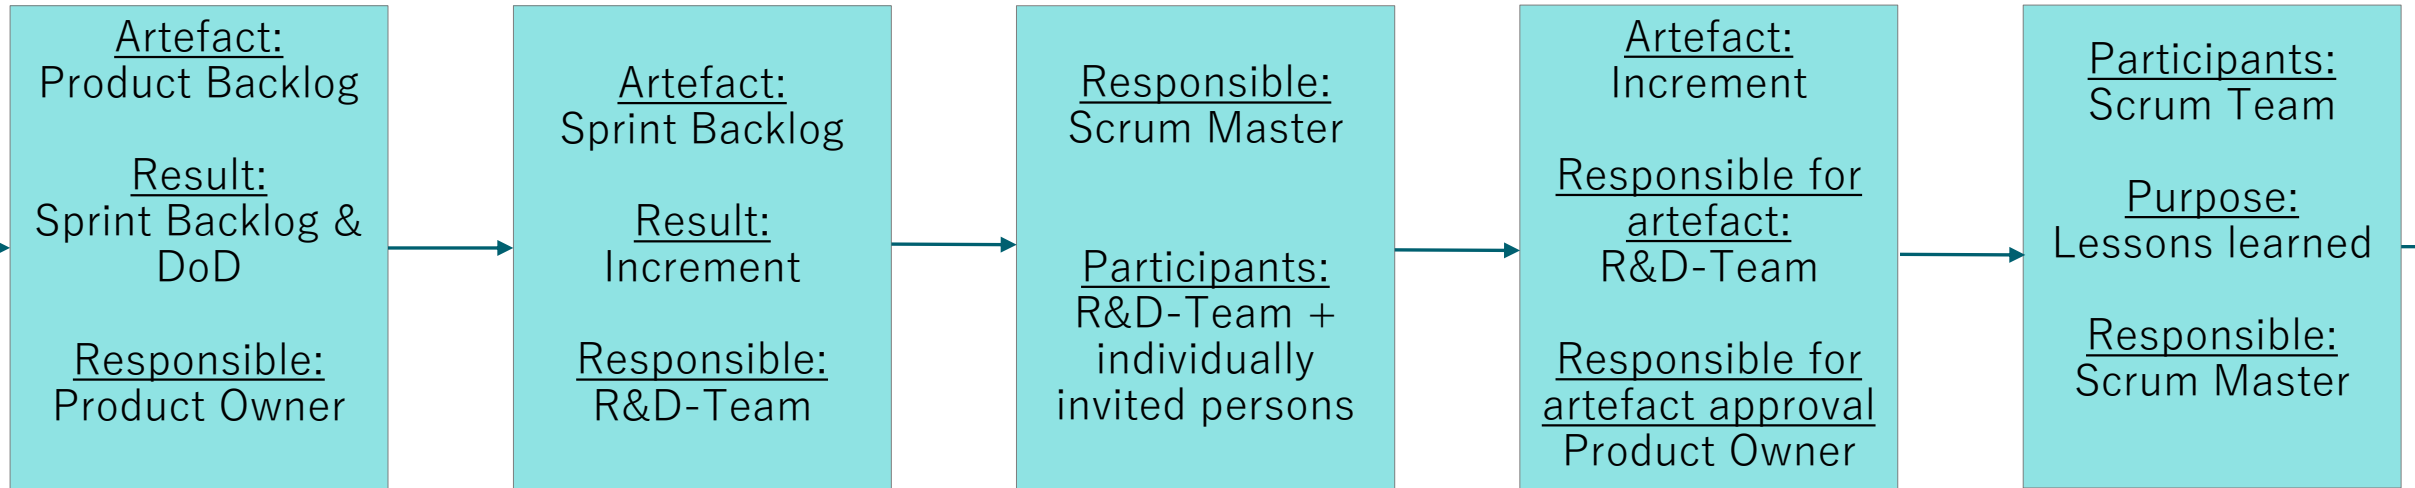

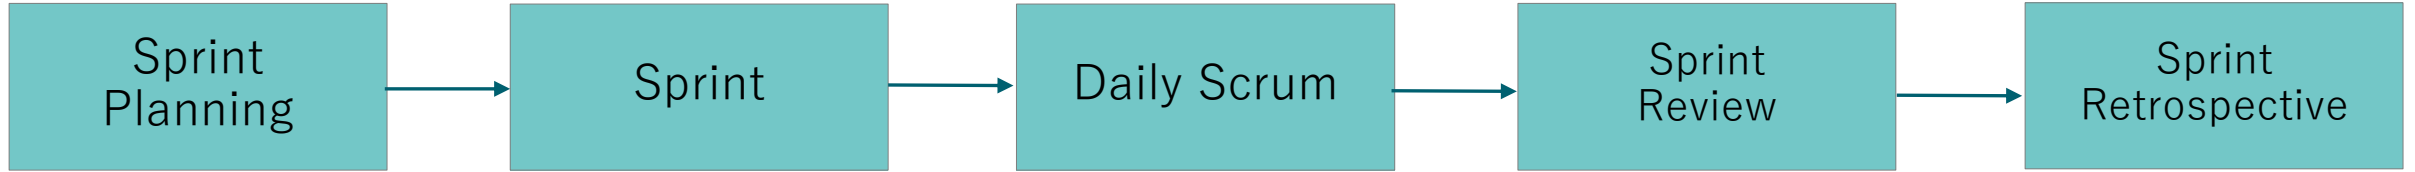

Focus on processes & results

Clear purpose of rituals and artefacts

# The Scrum roles

# The Scrum rituals & artefacts

## Standard Chapters

---

1. Scope
2. Normative references
3. Terms & definitions

Standard - related

4. Context of the organization
5. Leadership

Structure of organization

6. Planning

Plan

7. Support
  - 7.5 Documented information
8. Operation
  - 8.2 Requirements for products & services
  - 8.3 Design and development of products and services

Do

9. Performance evaluation

Check

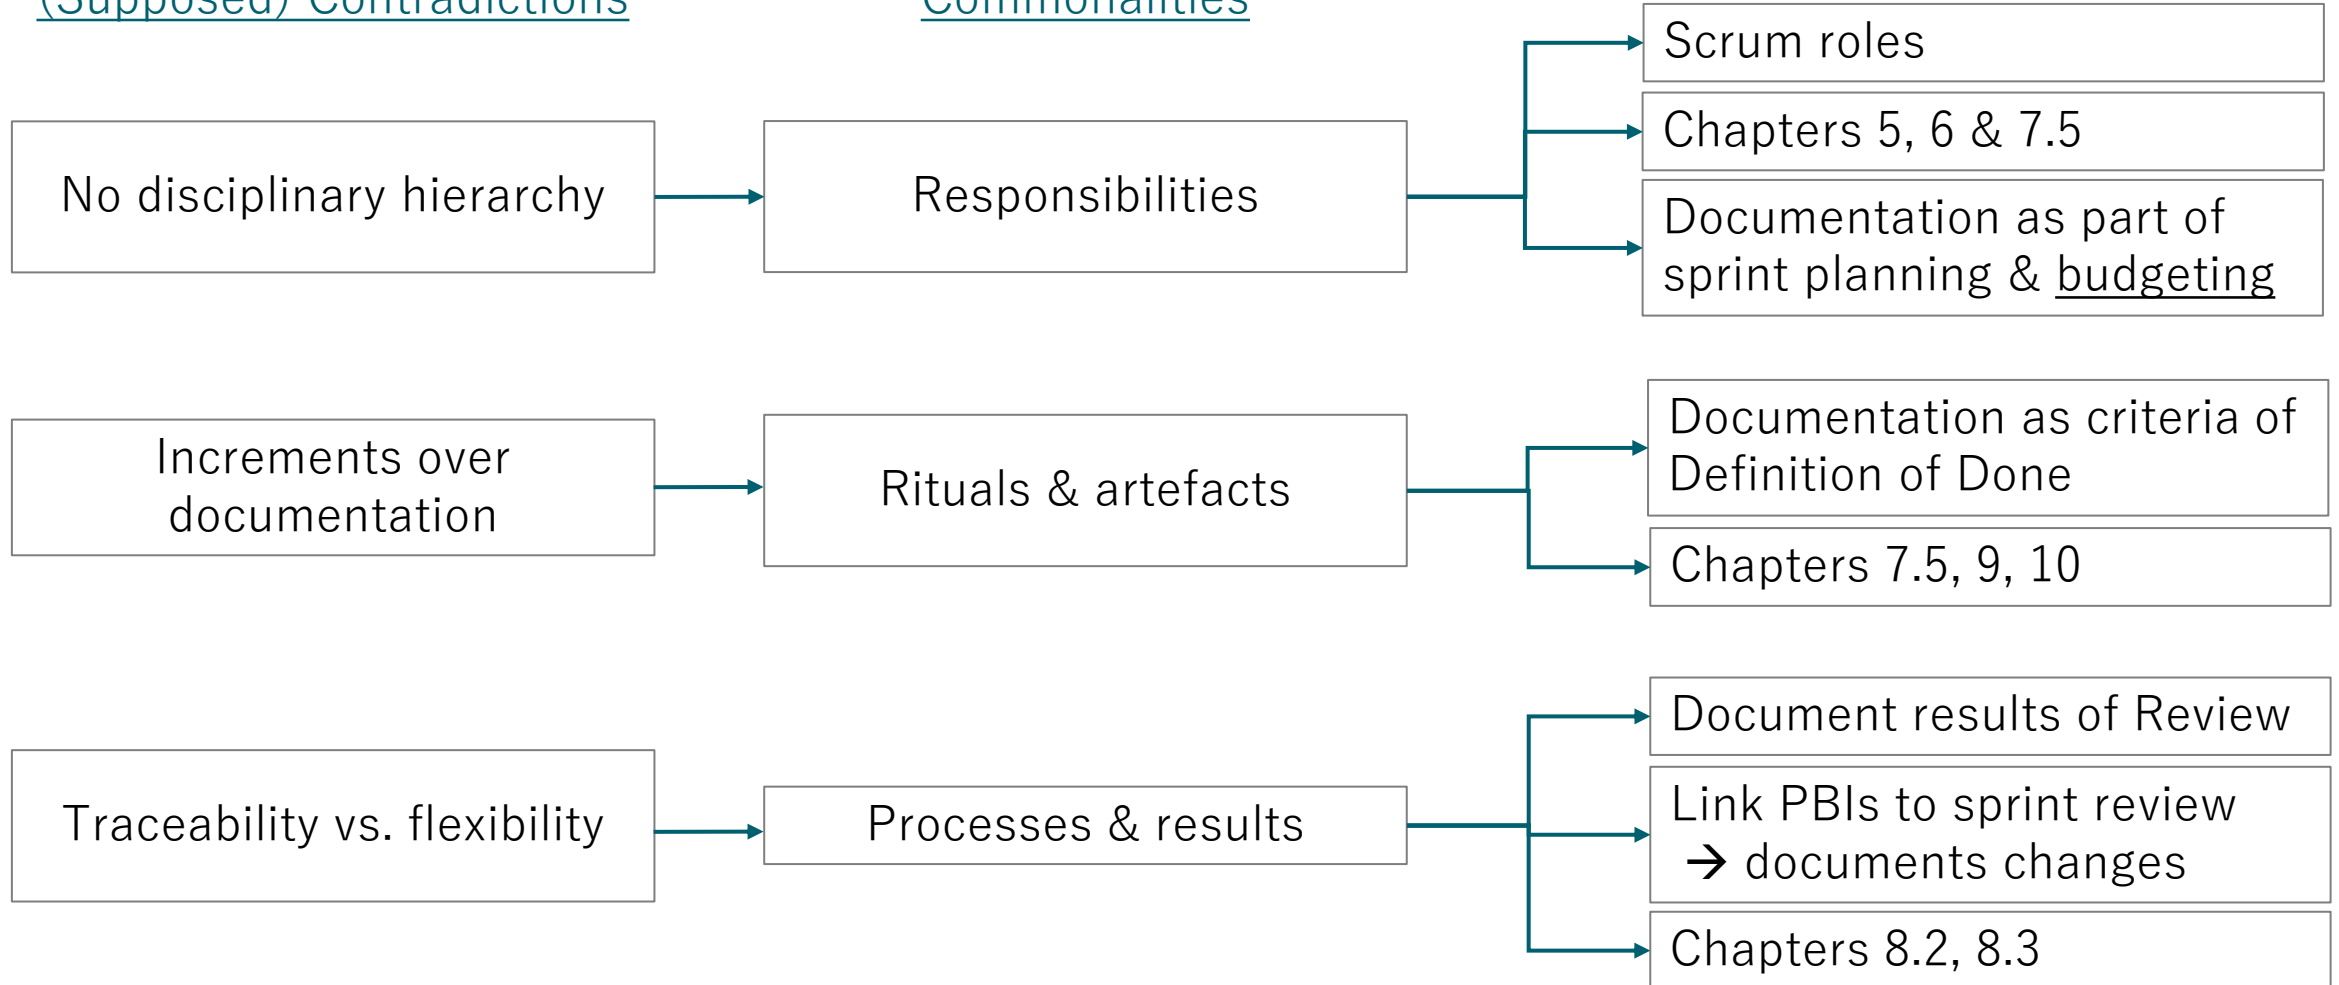

10. Improvement

Act

# Resolving contradictions by commonalities & linking agile structures to standard chapters

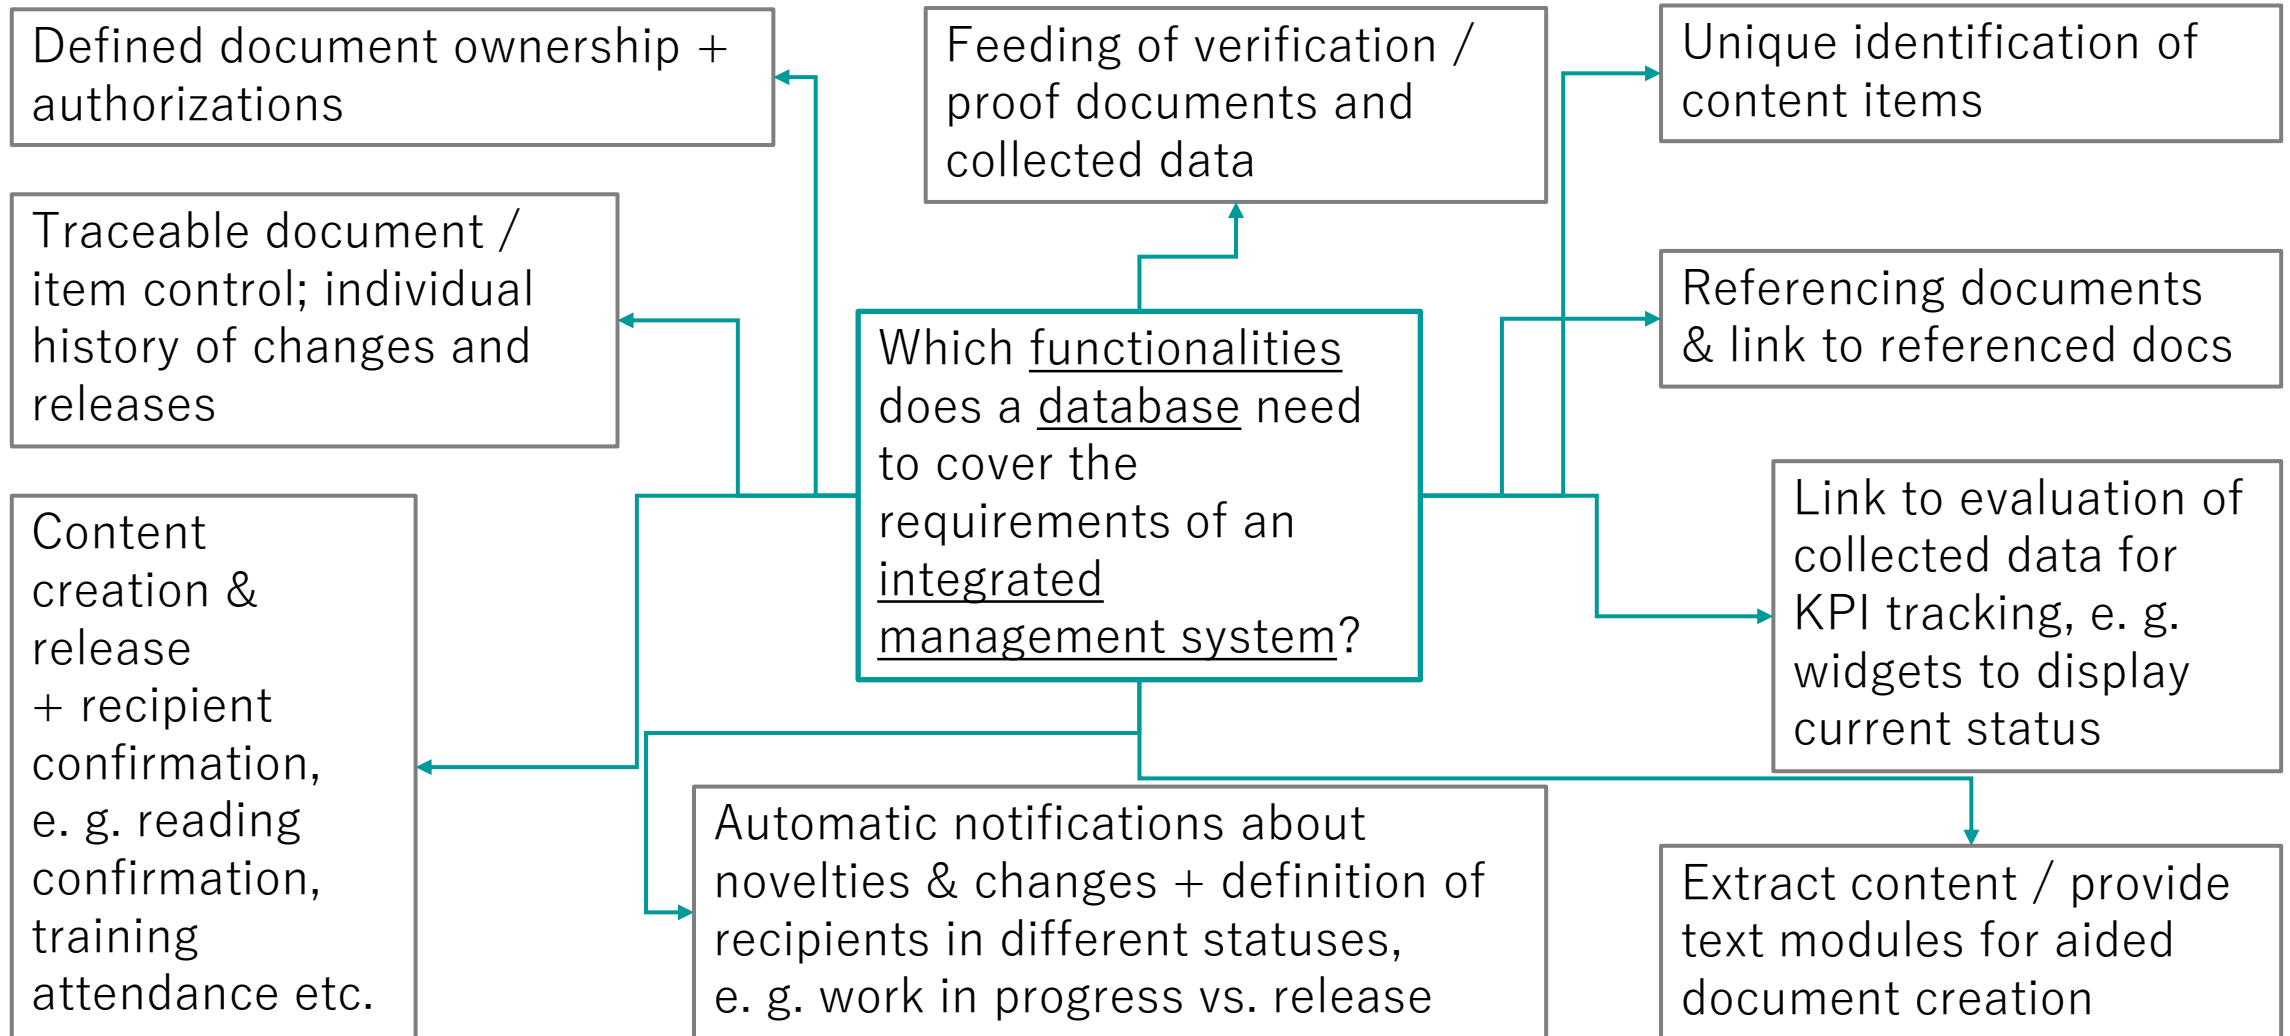

## (Supposed) Contradictions

## Commonalities

## Requirements for a knowledge database

## A dangerous myth

---

Another commonality

Neither

- agile frameworks
- standards
- knowledge databases

will reduce your workload!

Main benefit

Help you keep up with increasingly complex requirements by establishing and maintaining an efficient working culture and providing effective tools

Focus on the right things

Skip efforts that slow down processes

Scale your companies performance

Result will not (necessarily) be less working hours

Result will be more effective & comprehensive output

More customer satisfaction,

Better market position

More possibilities for employee well-being

---

Any thoughts or questions on this?

Thank you for your time!
